

Prashant Sali

Full Stack Developer | Java & React | Production-Grade Web Applications | prashantsali502@gmail.com | +91 75583 66731 | Pune, India
LinkedIn | GitHub

PROFESSIONAL SUMMARY

Full Stack Developer with 11+ months of professional experience building and shipping production-grade web applications. Proficient in React, Node.js, Java, and Spring Boot, with a strong foundation in RESTful API design, authentication systems (JWT, OAuth 2.0, Firebase), and database management (MongoDB, MySQL, PostgreSQL). Proven track record of delivering end-to-end features — from responsive React frontends to secure, scalable backends — across real-world client and personal projects. Experienced with Agile workflows, Git-based collaboration, and cross-functional delivery.

TECHNICAL SKILLS

Frontend: React.js, Redux Toolkit, Vite, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Design
Backend: Node.js, Express.js, Spring Boot 3.x, Java 21, RESTful API Design, Spring Security, Maven
Auth & Security: JWT, OAuth 2.0, Firebase Authentication, Passport.js (Google/GitHub), HMAC Signature Verification
Databases: MongoDB Atlas, MySQL, PostgreSQL, JPA/Hibernate
Integrations & Tools: Cloudinary, Razorpay, Nodemailer, Socket.io, Swagger/OpenAPI, Git, GitHub, Postman, Figma, VS Code, IntelliJ IDEA

PROFESSIONAL EXPERIENCE

Frontend Developer – Leapot Technologies (Jun 2025 - Present)

- Designed and shipped the company's official production website using React and Tailwind CSS - now the primary digital platform driving client acquisition
- Built and maintained scalable React applications integrated with RESTful APIs, supporting real-world business workflows and dynamic content delivery
- Led UI/UX delivery for a US-based client: managed design iterations, built high-fidelity Figma prototypes, and implemented pixel-perfect component libraries
- Improved frontend performance and cross-browser compatibility across multiple products through code reviews and optimization audits
- Translated complex Figma wireframes and design systems into accessible, user-centric UI components with strong attention to responsive behaviour

PROJECTS

DevConnect - Developer Collaboration Platform

- Tech:** React, Vite, Redux Toolkit, Tailwind CSS, Node.js, Express.js, MongoDB Atlas, PostgreSQL, JWT, OAuth 2.0, Passport.js, Cloudinary, Nodemailer, Socket.io, Swagger
- Built a full-stack developer social platform with 40+ REST API endpoints, Swagger documentation, and a complete authentication system supporting JWT sessions and Google/GitHub OAuth 2.0 via Passport.js
 - Implemented real-time notifications with Socket.io (graceful REST polling fallback for Render free-tier WebSocket constraints) and media uploads via Cloudinary CDN
 - Engineered transactional email flows (Nodemailer) for account verification and notifications, with layered security middleware (rate limiting, input sanitization, CORS)
 - Architected Redux Toolkit state management across a React + Vite frontend with route-level code splitting and optimistic UI updates

WorkLog Enterprise - Engineering Team Tracker

- Tech:** Spring Boot 3.x, Java 21, Maven, Spring Security, MySQL, JPA/Hibernate, Lombok, Firebase Authentication, React, Bootstrap
- Architected a role-based work-log system enforcing a five-tier hierarchy (Engineer → Tech Lead → Manager → Director → Admin) using Spring Security method-level and URL-level access control
 - Integrated Firebase Authentication with a custom FirebaseTokenFilter for stateless JWT validation on every secured API endpoint - eliminating session management overhead
 - Designed and implemented JPA entity models with relational mappings (OneToMany, ManyToOne) for teams, users, logs, and role assignments in MySQL
 - Built from a zero-dependency Java HTTP server to a production Spring Boot application, iterating through file-based JSON persistence → JDBC → JPA

CapSure - Maharashtra College Admission Platform

- Tech:** React, Node.js, Express.js, MongoDB, Razorpay, REST APIs
- Built a percentile-based college eligibility engine processing 25,000+ historical CAP round cutoff records, returning ranked results with eligibility status matched to student profiles
 - Integrated Razorpay payment gateway with server-side HMAC signature verification for secure, monetised access to premium search features
 - Delivered a full admin panel with Excel-based dataset import/management, a lead CRM with counsellor assignment workflows, and a session booking system for student-counsellor consultations
 - Implemented enterprise-grade security practices including input validation, auth middleware, and protected admin routes throughout the REST API

EDUCATION

Bachelor of Technology – Information Technology, G.H. Rasoni Institute of Engineering & Business Management, Jalgaon (2022 - 2025) — **CGPA: 7.67**
Diploma – Civil Engineering, R.C. Patel College of Engineering & Polytechnic, Shirpur (2019 - 2022) — **81.47%**

CERTIFICATIONS & LANGUAGES

Certifications: Training & Development (NPTEL), Android App Development (Kotlin) (Spoken Tutorial Project, IIT Bombay)
Languages: English (Professional), Hindi (Native), Marathi (Native)
